EDUCATION

M.Tech in Data Science

2025 - Present

School of Information Technology, RGPV, Bhopal

B.Tech in Computer Science and Business System

July 2025

School of Information Technology, RGPV, Bhopal

TECHNICAL SKILLS

Language: Python, SQL, HTML, CSS, JavaScript

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Concepts: Data Analytics, Data Cleaning, Data Modeling, EDA, Data Visualization, SDLC, DBMS

Visualization: PowerBI, Excel

Database: MySQL

Tools: Git, Github, N8N, MySQL, Jupyter Notebook, VS Code

PROJECTS

E-Commerce Sales & Customer Analytics Dashboard | Power BI

- Developed a 4-page interactive Power BI dashboard to analyze sales, profit, customers, products, and order performance.
- Cleaned and transformed data using Power Query and established relationships across multiple datasets.
- Created DAX measures for key KPIs including Total Sales, Total Profit, Total Orders, Average Order Value, Profit Margin, and Total Customers.
- Performed product, customer, category, and regional analysis to identify top performers and generate actionable business insights.

UPI Fraud Detection & Transaction Risk Analysis

- Built a UPI fraud detection pipeline using 10,000 synthetic transactions, applying IQR outlier detection, Isolation Forest, and time-series anomaly detection.
- Engineered behavioral features such as amount deviation, transaction frequency, recipient repetition, device change, and location change to identify suspicious activity.
- Developed a layered fraud-risk scoring framework combining multiple anomaly signals into Low, Medium, and High Risk categories.
- Created a Flask backend API to retrieve transaction risk details and flagged fraud alerts for review and future dashboard integration.

Python-Based Voice Assistant

- Developed an AI-powered voice assistant using Python and Hugging Face models, integrating Speech Recognition.
- Applied Natural Language Processing (NLP) to understand voice commands and perform tasks such as answering queries and executing basic operations.

ACHIEVEMENTS & CERTIFICATES

- Bhartiya Antariksh Hackathon 2026 Participant Presented by Indian Space Research Organisation (ISRO) Powered by Hack2Skill.
- Python with Data Science — Sheryians Coding School
- Python FullStack — Qspiders
